

BastA!

Basels starke Alternative

OUR VISION

We've had enough of a world that lurches from one crisis to another under the dictatorship of capitalism. We're tired of the profit-driven exploitation of people and nature. We reject the dominant logic of competition and economic growth. That's why we've come together as BastA!

As a feminist, eco-socialist party, we work towards the radical redistribution of time, power, and money. We fight for a social revolution that puts a good life for everyone at its core. Our solidarity is with all people around the world who stand up against injustice and oppression, and who demand a life of neighborly freedom and dignity. Their struggle is our struggle. Together, we passionately strive for a world free of poverty, hunger, war, and discrimination.

We want Basel to become a green and livable city for everyone. That's why we commit ourselves to shaping living spaces with the active participation of those who inhabit them. We champion climate justice, tax justice, and the universal recognition of basic human rights.

Social change is sparked wherever people stand together for their concerns. That's why we engage in social, queer, anti-racist, feminist, and ecological movements, in the legislature as well as in our neighborhoods. We want to learn from and with each other. Both internally and externally, we work towards creating spaces free from discrimination, fostering open exchange and constructive discussion.

Another world is possible. We can do it!
